

dix heures dix

iris H594

Design Fabrice Berrux

VERTICAL hanging lamp in [white or ivory ribbon](#).

High power LED lighting with 0-10V dimming power supply.

Adjustable height of the 2 suspension wires fixed to the canopy (20-200cm).

Identical finish on both sides. 60cm diameter.

Dimming option 1: DALI - PushDim.

Dimming option 2: Triac phase-cut - 60% to 100% of lighting output.

Option 3: 5 or 8 meters suspension wires.

Two types of lighting effects are available :

- Simple Flux (LED light coming ONLY from the inner circle)
- Double Flux (LED light coming from BOTH the inner circle AND the outside circle).

Simple Flux - SF

Double Flux - DF

Two colors of ribbon for two lighting sensations to choose from:

- White textile for warm lighting >2700°k (snow white)

- Ivory textile for very warm lighting >2500°k (wool white)

White - Ivory ON

White - Ivory OFF

The dix heures dix technical department can now study **your own composition with IRIS pendants**, by mixing the various available, standard suspensions.
