LES JARDINS®

HIGH EFFICIENCY
SOLAR LIGHTING

SPACE
lighting + living

Make outdoor lighting Beautiful, Smart and Clean.

6 years of R&D investment program to finally
offer

HIGH EFFICIENT SOLAR LIGHTING using energy
from the sun to infuses it into an autonomous
Solar Bulb -ASB.

- ✓ **Efficient solar lighting** generating between 300 to 500 lumens of warm light (3000K). Depending of the version
- ✓ **Long lasting energy.** Up to 10hours light fully charged.
- ✓ **LEDs can be dimmed** to your liking.
- ✓ **3 settings** on the large modules (1.turn on/off with natural light 2. manual and 3. intelligence.)
- ✓ **New Sensors**, our lights feel your presence, by turning on when you pass.
- ✓ **Eco-design:** products that can be easily recycled, take up little space and are long-lasting ... so that they have as little impact as possible on the environment!

SKAAL SOLAR LANTERN

SPACE
lighting + living

SKAAL solar and rechargeable lantern. Available in 2 finishes Space grey aluminum and Duratek and 2 sizes.

BLADE - SOLAR LANTERN

SPACE
lighting + living

Solar and rechargeable garden lantern. Available in 3 sizes and 4 finishes. Black aluminum and Duratek,

BLADE - SOLAR LANTERN

Solar and rechargeable garden lantern. Available in 3 sizes and 4 finishes. white aluminum and Duratek

BLADE SOLAR LANTERN

Solar and rechargeable garden lantern. Available in 3 sizes and 4 finishes. Stainless steel, teak

Tradition available in 2 dimensions and 3 finishes Anthracite
aluminum, teak, Duratek with frosted glass.

TECKA SOLAR LANTERN

TECKA solar lantern. Available 2 finishes teak or Duratek and frosted glass

ROAM SOLAR LANTERN

ROAM solar and rechargeable. In teak or Duratek and frosted glass.

FARO SOLAR LAMP

SPACE
lighting + living

Pathway light in grey aluminum. Available in 2 sizes

TECKA SOLAR GARDEN TORCH

TECKA solar and rechargeable garden torch Delivered with inox spike to plant. Available in 2 sizes and 2 finishes in teak and duratek

TINKA SOLAR GARDEN TORCH

TINKA[®] solar and rechargeable torch delivered with inox spike to plant. Available in 2 sizes and 3 finishes grey, white and red

PENDULUM SOLAR FLOOR LAMP

PENDULUM solar floor lamp in teak with Duratek treatment, aluminum and lava stone.

HOW THE LIGHTS WORKS

All our lamps work with an **ASB (Autonomous Solar Bulb)**. This ASB is interchangeable. A sleek mat solar panel seats on top of the casing that contains one or two lithium batteries, (depending on the version), a mother board, and 5 or 10 LEDs

Our PREMIUM version is the ASB500 (500 lumens- SOLAR and rechargeable through micro USB as well, motion sensor activated, 10 LEDs). **Our standard version** is the ASB300 (300 lumens). Both versions are dimmable, Waterproof IP55.

ASB300 – STANDARD– (300 LUMENS, 3000K, DIMMABLE, 1 BATTERY, 5 LEDS, 100% SOLAR RECHARGEABLE, RANGE: 4 hours at full power, up to 150 hours per charge if dimmed)

ASB500 – PREMIUM – (500 LUMENS, 3000K, DIMMABLE, 2 BATTERIES, 10 LEDS, MOTION SENSOR, SOLAR AND USB RECHARGEABLE-HYBRID. RANGE: 5 HOURS at full power, up to 200 hours per charge if dimmed)
