## THE FACTORY OF EMOTIONS

Founded in **1997** by **Ermanno Rocchi and Massimo Crema**, Melogranoblu is based in **Bergamo Italy**.

Melogranoblu has been carrying fine Italian craftsmanship and glassblowing into the 21st century. It has developed a wide range of solutions for interior lighting design, suitable for homes or offering more impressive installations for large architectural settings.

The collection offers real spectacles of light, with a particular focus on the sensorial and emotional effect that is obtained with the light through the glass.
