# Our story

Atelier Loupiote is the dream of offering you a new approach to lighting; a counter current approach to current offerings promoting craftsmanship and localism.

## Who are we?

Atelier Loupiote is the union between a State Certified Architect and an Industrial Engineering graduate who dream of offering you a new approach to interior lighting. A counter-current approach, promoting craftsmanship and localism.

Today, it is a team of design enthusiasts with diverse skills who don't just see lighting as an object, but as an element that creates continuity and coherence in our spaces. In other words, it's a key element that ensures well-being at home! Our designers draw their inspiration from minimalism and functionality to showcase sparkling aesthetics.

The founder, Maxime, a curious engineer and entrepreneur, represents the rational and technical side. With his experience, he bridges the gap between industrial manufacturing processes and the handmade. Technicality and precision are the keywords due to the thin thicknesses processed.

« Love against the current...  
Relocalization at the heart...  
Unique light... »

# Distinction

## ***Let us explain !***

In the race towards globalization, we aim to be a pioneer in the relocalization of lamp production in France. Indeed, this declining activity has been divided by three over the past decade. Therefore, through our various designs, we propose to ensure the quality of "Made in France" as well as the durability of the products, by combining aesthetics, simplicity, and functionality.

## ***How to do it ?***

We opt not to search far and wide, instead, we carefully select premium wood species sourced from local sawmills. Our decision is to showcase the natural resources that define our landscapes, all within a short supply chain.

Each model is designed as a sculptural, open-work object, offering a unique luminous universe, thanks to its slender and finely slatted wooden structure. The light gains its warm character through the contrasts and natural reflections of the wood throughout your interior spaces. It is this material, worked only in thin thicknesses, that characterizes us.

In this responsible design and production approach, we also consider optimizing logistics. To reduce storage and transportation costs and make our designs more affordable, our wooden lamps are fat-packed as kits in attractive recyclable boxes. This approach also leads to another important criterion: involving the consumer more in the product's story.

*Localism*

*Singular  
design &

# Albatros

## A glimpse into its universe

**Albatros is a magnificent luminaire that dominates spaces.** The slender wooden slats play with light, diffusing brightness and casting delicate shadow patterns on the ceiling. It will fit perfectly as the central lighting of your spaces. But it's also ideal above a dining table, buffet, or kitchen island.

Secured by a metal ceiling rose, the product includes an adjustable 4.92 feet textile cable, as well as an E26 socket. To fix the ceiling rose, you will find plugs and screws in your box.

The choice of the bulb significantly influences the lighting ambiance of our creations and your spaces.

You have the flexibility to adjust the color temperature, intensity, and design of the LED filaments.

Assembly time: 17 to 20 minutes

For pendant lights, **we recommend 3000K bulbs, a great compromise between illumination and warmth.**

### Cable :

Available in white and natural color.

**Cable:**  
Adjustable  
from 3.28 ft to  
4.92 ft.

**Available in multiple sizes, suitable  
for any type of space.**

See size guide / Next page

# Choosing the right size.....

## Size guide

In areas of high foot traffic such as corridors, it is advisable to maintain a minimum clearance of 6.56 feet between the pendant light and the floor to ensure the safety of individuals passing beneath.

To provide illumination over a dining table, the pendant-to-floor clearance can be reduced to 62.99 inches, as opposed to the standard 6.56 feet clearance.

# The diffusion of light

« As true light sculptors, we meticulously craft light and shadow interplays from the initial design phase, ensuring a unique and balanced outcome throughout your spaces.

Atelier Loupiote

## A glimpse into its universe

Simple and minimalist, Azur, characterized by its refined curvature, seamlessly integrates into a multitude of décors. The wooden slats diffuse warm light, making it ideal for placement above a dining table, buffet, or kitchen island. Designed by our creative workshop and manufactured utilizing precision laser cutting technology.

Secured by a metal ceiling rose, the product includes an adjustable 4.92 feet textile cable, as well as an E26 socket. To fix the ceiling rose, you will find plugs and screws in your box.

The choice of the bulb significantly influences the lighting ambiance of our creations and your spaces.

You have the flexibility to adjust the color temperature, intensity, and design of the LED filaments.

Assembly time: 14 to 16 minutes

For pendant lights, **we recommend 3000K bulbs, a great compromise between illumination and warmth.**

**Cable :**

Available in white and natural color.

**Cable :**  
Adjustable from  
3.28 ft to 4.92 ft

**Height :**  
10.63 in

**Diameter :** 21.26 in

## A glimpse into its universe

Ava, delicate in nature, will bring warmth, sometimes soft and muted, other times radiant and luminous. The perforated blades bring timeless elegance and accentuate your spaces. It fits perfectly as lighting for a bedroom, a living room, or above a dining table.

Secured by a metal ceiling rose, the product includes an adjustable 4.92 feet textile cable, as well as an E26 socket. To fix the ceiling rose, you will find plugs and screws in your box.

The choice of the bulb significantly influences the lighting ambiance of our creations and your spaces.

You have the flexibility to adjust the color temperature, intensity, and design of the LED filaments.

Assembly time: 14 to 16 minutes

For pendant lights, **we recommend 3000K bulbs, a great compromise between illumination and warmth.**

Available in white and natural color.

**Cable :**  
Adjustable from  
3.28 ft to 4.92 ft

**Height :**  
14.17 in

**Diameter:** 22.44 in

# Andromède

## A glimpse into its universe

Simple and minimalist, Andromède adapts to numerous décors. The narrow and tapered geometry brought by the wooden slats allows for intense and warm light. Whether used alone or in pairs, it's ideal above a dining table, buffet, or kitchen island.

Secured by a metal ceiling rose, the product includes an adjustable 4.92 feet textile cable, as well as an E26 socket. To fix the ceiling rose, you will find plugs and screws in your box.

The choice of the bulb significantly influences the lighting ambiance of our creations and your spaces.

You have the flexibility to adjust the color temperature, intensity, and design of the LED filaments.

Assembly time: 14 to 16 minutes

For pendant lights, **we recommend 3000K bulbs, a great compromise between illumination and warmth.**

### Cable :

Available in white and natural color.

**Cable :**  
Adjustable from  
3.28 ft to 4.92 ft

# Ambre

## A glimpse into its universe

The light of Ambre provides the eye with an exquisite interplay. The wooden slats gracefully angle towards the light source, producing a warm and convivial diffusion. Perfect for smaller spaces or arranged in pairs or trios above a dining table, bar, or even a bedside table.

Secured by a metal ceiling rose, the product includes an adjustable 4.92 feet textile cable, as well as an E26 socket. To fix the ceiling rose, you will find plugs and screws in your box.

The choice of the bulb significantly influences the lighting ambiance of our creations and your spaces.

You have the flexibility to adjust the color temperature, intensity, and design of the LED filaments.

Assembly time: 17 to 20 minutes

**Cable :**  
Adjustable from  
3.28 ft to 4.92 ft

**Height :**  
29 cm

**Diameter :** 8.27 in

# Atlas

## A glimpse into its universe

Sleek and minimalist, Atlas seamlessly complements a wide range of décors. The generous and refined geometry of its wooden slats offers warm and diffused illumination. Whether used solo or in pairs, it is ideal for placement above a dining table, buffet, or kitchen island.

Secured by a metal ceiling rose, the product includes an adjustable 4.92 feet textile cable, as well as an E26 socket. To fix the ceiling rose, you will find plugs and screws in your box.

The choice of the bulb significantly influences the lighting ambiance of our creations and your spaces.

You have the flexibility to adjust the color temperature, intensity, and design of the LED filaments.

Assembly time: 14 to 16 minutes

For pendant lights, we recommend **3000K bulbs, a great compromise between illumination and warmth.**

### Cable :

Available in white and natural color.

# Ariel

## A glimpse into its universe

Intersecting Andromède and Atlas, Ariel gracefully curves to present an enchanting design. Always simple and minimalist. Whether used individually or in pairs, it's ideal for placement above a dining table, buffet, or kitchen island

Secured by a metal ceiling rose, the product includes an adjustable 4.92 feet textile cable, as well as an E26 socket. To fix the ceiling rose, you will find plugs and screws in your box.

An E26 LED bulb (required) is recommended, offering warm light with a power range up to 10W.

Assembly Time: 20 to 25 minutes

For our floor lamps, **We recommend bulbs with a color temperature of 2500K- 3000K, offering an excellent balance between illumination and warmth**

**Tripod :**  
**Wood**

**Black**

# Agathe

## A glimpse into its universe

Whether used individually or as a duo, the captivating curves of our Agathe floor lamp imbue spaces with softness, roundness, and serenity. Whether your interior design leans towards contemporary or minimalist, its tripod, offered in black metal or wood, seamlessly integrates into your space.

Our floor lamps include the essential electrical components: metal or wooden base and electrical wiring.

The choice of bulb greatly impacts the lighting ambiance of our designs and your spaces. You have the flexibility to adjust the color temperature, intensity, and LED filament design.

Kipli X Atelier Loupiote Collaboration

Derived from the Kipli x Atelier Loupiote collaboration, our TIPI floor lamp sculpts interiors, imparting them with a distinctive charm.

To be placed on the floor, the product features a 8.20 ft natural cable color and an E26 socket. The socket can be fixed either towards the floor or the ceiling, depending on the desired light diffusion.

The choice of bulb significantly influences the lighting ambiance of our creations and your spaces. You can adjust the color temperature, intensity, and design of LED filaments to suit your preferences.

Assembly time: Approximately 20 minutes.

For our floor lamps, **We recommend bulbs with a color temperature of 2500K- 3000K, offering an excellent balance between illumination and warmth**

**Cable:**

Available in natural color.

**Height:**  
46.46 in

**Diameter:** 18.90 in

# Thank you !

We are delighted to have you on board with Atelier Loupiote and thank you for contributing to the growth of this project, which means so much to us.

## **Something bright awaits you !**

Conceived in our minds and crafted by our hands, all our luminaires are brilliantly manufactured in our workshop in Lyon to ensure **a 100% local production.**

To stay updated on our latest releases, you can follow us on Facebook, Instagram, and TikTok, as well as visit our website.
