info@k-ysm.co.jp

Y.S.M is a lighting manufacturer that fabricates functional lighting fixtures with aesthetic design. By combining our expertise of innovative sheet metal work with high-quality lighting technology, we offer a revolutionary line of LED products for commercial and residential use. Our team works with various lighting designers throughout Japan to perform everything including ideation, production, and assembly. We take pride in having the finest illumination technology, and the teamwork to make this possible.

Lighting to illuminate every moment.

HOOP

HOOP is a table lamp that marries function and style. The sculptural organic line connects from the shade to the leg stand, resembling a minimalist art sculpture. Slimness and delicacy were pursued in this streamlined design that only an LED light and bent sheet metal could achieve. As ambient lighting for the living room or bedside mood lighting, it creates a calm and comfortable atmosphere.

Crafted in Our Factory: Hand-Made Excellence

Handcrafted in our own factory, each product showcases the dedication of our skilled craftsmen. From precision laser cutting to meticulous welding and assembly, every step is carried out by hand to ensure unparalleled quality. Take our HOOP design, for example, where laser-cut metal plates are expertly bent into a sleek curved surface before being seamlessly welded together. Utilizing special welding techniques, we ensure minimal visible marks, resulting in a flawless surface finish that exudes beauty and sophistication.

and-on

and-on mesmerizes as it invites you to admire the nuanced texture of paper. This special lamp is a concept project created in collaboration with designer Kenji Fukushima and paper specialists Tesuki Washi Tanino. This LED lamp combines innovative lighting technology with the beauty of washi in new forms to continue the unique craft tradition for generations to come.

Combination of brass and traditional Japanese paper washi.

and-on uses hand-made Japanese washi paper, carefully produced one sheet at a time from the rare, native Kozo Mulberry tree. Washi is a traditional hand-made Japanese paper made of natural raw materials, which dates back to the 1300's and is a large part of Japan's cultural heritage. The unique texture bears the mark of craftsmanship.

NIGHT BOOK

The book shines on your time

NIGHT BOOK is an LED lighting object concealed in the shape of a book. Without the need for a switch, its light glows like magic when pulled out from its case. Place the light between books to create an innovative experience and poetic environment.

Using long-lasting LED, and acrylic surface, and natural tanned leather, NIGHT BOOK allows to enjoy the product for a long-time usage. The leather also ensures that each product develops its own unique patina.

Tailored OEM Planning and Manufacturing Solutions

Personalize your book cover with custom colors or engraved logos, transforming each piece into a unique masterpiece. Enjoy the flexibility to tailor your order to your specifications, with a minimum quantity requirement of just 50 units.

Our commitment to craftsmanship: we researched the optimal methods, structure and light system, to emit a gentle glow in thickness of a book. Selected leather are carefully put in one by one to use these charming light for a long time.

LIGHT SHELF

MINIMAL LIGHTING SHELF FOR DISPLAY

In the living room.

Accessories like watches and rings, your favorite items such as key cases and perfumes, can be displayed beautifully.

On the desk.

LIGHT SHELF can light only the area nearby without taking up space because the height of illumination is low. When the work is over, use it as a desk organizer. Work tools fit nicely inside the frame of the light.

For reading.

The width of LIGHT SHELF is just 30cm. As a matter of fact, its size is the perfect width to casually enjoy your favorite books.

LIGHT SHELF is an LED lamp and display unit that highlight objects under soft warm light. This product can also be used as indirect mood lighting. The unique illuminated space not only highlights personal household objects but enlivens the little things in our daily lives.

LIGHT SHELF GOLD

Experience the timeless elegance of LIGHT SHELF GOLD, designed with the same aesthetic appeal and practical functionality for illuminating your cherished items. Beyond its illuminating capabilities, this exquisite lighting product radiates an unparalleled brilliance, commanding attention with its opulent gold finish crafted entirely from brass. Embrace the natural oxidation process as the metal gracefully reacts with the air, allowing the product to develop a rich antique patina over time. Revel in the vintage charm of the deep patina, which enhances the period-style allure of this stunning piece.
